[Indian Wife Forced Feminised Husband Story](#)

I guess there's no going back. Two years ago I was a man with a high-powered job as a lawyer with a commercial law firm in the City of London.

Then I met Courtney. We moved in together and she told me I would have to make some changes if we were going to live together. I didn't know these were the changes she had in mind.

First she made me take female hormones, then she booked me in for extensive facial feminisation surgery in Spain.

Now she says she's entered me for the 'Feminised Husbands' Reality TV Show on Channel 7.

She says if I don't win I'll have to work as a secretary/typist in my former office. She says the humiliation will be good for my training, and will eradicate the last vestiges of male pride.

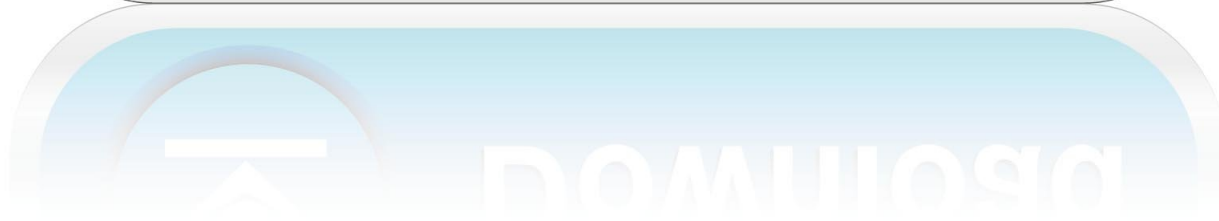

But she's determined that I'll win the million pound prize by coming first in the 'Feminised Husbands' Show.

So she's taking me to Bangkok for 'a little tidying up between my legs'. She says I must look perfect in my panties if I'm going to win.
